Our Support Team is on Twitter: Disclaimer : This article is not an official software download or development page. This article is just a fan page, It is a place where you can download application files, applications screen shots or videos. All these applications and games are for home or personal use only. If any damage caused to the software by the user, that is only user fault.Q: Scala and Hadoop: is it possible to import mappers and reducers from an existing job? I have a distributed job that runs in Hadoop. I have the code for the mapper and reducer. Is it possible to use Hadoop's existing system to launch new mapreduce jobs containing some of the existing functions? If so, how? A: Yes, you can do that. You will just need to use the MapReduce API directly from your Scala app, and simply use the code you have created
